Ravi Prasad

Deputy General Manager – Blast Furnace | Operations & Projects

Kharagpur, West Bengal ravi_chourasia@yahoo.com +91 70193 42479 / 83909 09179 WhatsApp LinkedIn

PROFESSIONAL SUMMARY

Metallurgical engineer with **20+ years in blast furnace operations, erection and commissioning** across integrated steel plants. Currently runs a **350 m³ blast furnace at 112% of production target** with PCI, oxygen enrichment and tight hot metal quality. Combines **hands-on process control, project delivery and RCA-led reliability** with strict cost and safety discipline.

112.3%
Target achievement
45,401 MT vs 40,420 MT

4.58
Productivity
MT/m³/day (4.74 peak day)

94.05%
Fe recovery
in hot metal

151 kg
PCI rate per THM
coke rate 344 kg/THM

OPERATIONAL PERFORMANCE – BENGAL ENERGY LIMITED (350 M³ BF)

Parameter	UoM	15 Jan 2026	To date
Actual production	**MT**	**1,515.62**	**45,401.36**
Target production	MT	1,390.00	40,420.00
Compliance rate	**%**	**105.32**	**112.32**
Productivity	MT/m³/day	4.74	4.58
Fe recovery	%	93.96	94.05
Hot metal temperature	°C	1,466	1,470
Coke rate	kg/THM	322.22	343.95
PCI rate	kg/THM	158.25	151.24
Fuel rate	**kg/THM**	**528.46**	**538.22**
Oxygen enrichment	%	4.90	4.72
Hot metal Si / S	%	0.67 / 0.041	0.68 / 0.040
Slag basicity	–	0.97	1.00

PROFESSIONAL EXPERIENCE

Deputy General Manager, Blast Furnace (Operations) · Bengal Energy Limited, Kharagpur — Jul 2023 – Present

- Deliver **112% of production target** by optimising process parameters against monthly production, fuel rate and quality goals (PQCDSM).
- Plan and execute **monthly shutdowns and furnace ramp-up** on schedule.
- Reduce repeat breakdowns through **RCA, preventive maintenance and interlock improvements**.
- Optimise **oxygen, PCI, steam, hot blast and BF gas** use; control spares and inventory by criticality and lead time.

Deputy General Manager, Blast Furnace (Operations) · Jai Balaji Industries Ltd., Durgapur — Sep 2020 – Jul 2023

- Set a **new productivity benchmark**; **commissioned and optimised PCI** injection.
- Key role in **BF gunning, capital repair and refractory relining**; maintained standard GUTKO in cast house practice.

Assistant General Manager, Blast Furnace (Operations) · Hospet Steels Ltd., Hospet — Sep 2015 – Apr 2020

- Raised productivity to a **furnace benchmark**; optimised oxygen, PCI, steam and hot blast use.
- Contributed to BF gunning, capital repair and relining campaigns.

Manager, Blast Furnace (Operations) · Uttam Galva Metalics Ltd., Wardha — Nov 2011 – Sep 2015

- Monitored process in real time on **PI systems**; held cast house practice and GUTKO to meet customer hot metal needs.

Manager, Blast Furnace (Operations) · VISA Steel Ltd., Jajpur — Jan 2010 – Nov 2011

- Process control, **shutdown planning and furnace ramp-up**; project coordination and customer satisfaction.

Assistant Manager, Blast Furnace (Operations) · Usha Martin Ltd., Jamshedpur — Sep 2008 – Jan 2010

- Controlled **hot metal and slag chemistry to SMS requirements**; played a key role in **blow-down and relining**; TPM JH pillar SPOC.

Assistant Manager, Blast Furnace (Operations) · Rashmi Metaliks Ltd., Kharagpur — Aug 2006 – Aug 2008

- Part of **BF erection, furnace filling, stove heating and commissioning**; analysed breakdowns and automation interlocks.

Senior Engineer, Blast Furnace (Operations) · Jai Balaji Industries Ltd., Durgapur — Jan 2004 – Aug 2006

- Executed **BF project activities**: cold trials, refractory lining, stove pressure testing, water balancing and interlocks.

KEY ACHIEVEMENTS

- **One-go blast furnace commissioning** and **PCI commissioning**.
- Delivered **45,401 MT** against a 40,420 MT target while holding hot metal at **Si 0.68%, S 0.040%**.
- Led **gunning, capital repair, relining and blow-down** campaigns at multiple plants.
- Recognised **internal auditor for 5S and TPM**.

TECHNICAL EXPERTISE

Process control	Thermal regime, burden distribution, RAFT and heat loss control, slag and hot metal chemistry
Fuel & energy	PCI, oxygen enrichment, hot blast, BF gas, coke rate reduction, energy conservation
Equipment	Skip, double bell and BLT charging; stave coolers; hot blast stoves; GCP; cast house
Projects	Cold trials, stove heating, commissioning, shutdowns, relining, gunning
Reliability	RCA, failure analysis, automation interlocks, PI trend analysis, 5S and TPM audit
Management	Vendor performance, spares and budget control, training and multi-skilling

PROFESSIONAL STRENGTHS

- **Calm, decisive** during furnace upsets and tight shutdown windows
- **Data-led problem solver**: trends, root cause, then a fix that holds
- **Cross-functional leader** across SMS, sinter plant, power plant and maintenance
- **Safety-first** coach who builds multi-skilled crews
- **Cost-conscious**, favouring simple, repeatable improvements
- **Clear communicator** with management, vendors and shop floor

EDUCATION & LANGUAGES

B.E. Production Engineering, First Class (2003) – M.I.E.T. Engineering College, Gondia (Nagpur University), Maharashtra
Languages: English, Hindi, Bengali
