Profile

Blast furnace leader with 20+ years in operations, erection and commissioning at integrated steel plants. Runs a 350 m³ furnace at 112% of target with PCI, oxygen enrichment and tight hot metal quality. Blends hands-on process control with project delivery, RCA-led reliability and cost discipline.

- 45,401 MT produced against a 40,420 MT target (112.3% compliance)
- Fe recovery 94.05%, hot metal Si 0.68%, S 0.040%
- One-go BF commissioning and PCI commissioning
- Led gunning, capital repair, relining and blow-down campaigns

Performance

Bengal Energy Limited, 350 m³ BF. Daily figures for 15 Jan 2026 and period to date.

Parameter	UoM	15 Jan 2026	To date
Production	MT	1,515.62	45,401.36
Target	MT	1,390.00	40,420.00
Compliance	%	105.32	112.32
Productivity	MT/m³/day	4.74	4.58
Fe recovery	%	93.96	94.05
Hot metal temperature	°C	1,466	1,470
Coke rate	kg/THM	322.22	343.95
PCI rate	kg/THM	158.25	151.24
Fuel rate	kg/THM	528.46	538.22
Oxygen enrichment	%	4.90	4.72

Parameter	UoM	15 Jan 2026	To date
Hot metal Si / S	%	0.67 / 0.041	0.68 / 0.040
Slag basicity	–	0.97	1.00

Experience

Deputy General Manager, Blast Furnace (Operations) | Bengal Energy Limited, Kharagpur | Jul 2023 – Present

- Own process optimisation against monthly production, fuel rate and quality targets (PQCDSM)
- Plan and execute monthly shutdowns and furnace ramp-up on schedule
- Cut repeat breakdowns through RCA, preventive maintenance and interlock improvements
- Optimise oxygen, PCI, steam, hot blast and BF gas; control spares by criticality and lead time

Deputy General Manager, Blast Furnace (Operations) | Jai Balaji Industries Ltd., Durgapur | Sep 2020 – Jul 2023

- Set a new productivity benchmark; commissioned and optimised PCI
- Key role in BF gunning, capital repair and refractory relining; held standard GUTKO

Assistant General Manager, Blast Furnace (Operations) | Hospet Steels Ltd., Hospet | Sep 2015 – Apr 2020

- Raised productivity to a benchmark; optimised oxygen, PCI, steam and hot blast
- Contributed to gunning, capital repair and relining

Manager, Blast Furnace (Operations) | Uttam Galva Metalics Ltd., Wardha | Nov 2011 – Sep 2015

- Real-time process monitoring on PI systems; maintained cast house practice and GUTKO

Manager, Blast Furnace (Operations) | VISA Steel Ltd., Jajpur | Jan 2010 – Nov 2011

- Process control, shutdown planning and ramp-up; project coordination and customer satisfaction

Assistant Manager, Blast Furnace (Operations) | Usha Martin Ltd., Jamshedpur | Sep 2008 – Jan 2010

- Hot metal and slag chemistry to SMS needs; blow-down and relining; TPM JH pillar SPOC

Assistant Manager, Blast Furnace (Operations) | Rashmi Metaliks Ltd., Kharagpur | Aug 2006 – Aug 2008

- Erection, furnace filling, stove heating and commissioning; breakdown and interlock analysis

Senior Engineer, Blast Furnace (Operations) | Jai Balaji Industries Ltd., Durgapur | Jan 2004 – Aug 2006

- BF project execution: cold trials, refractory lining, stove pressure testing, water balancing, interlocks

Skills

Area	Strengths
Process	Thermal regime, burden distribution, RAFT and heat loss control, slag and hot metal chemistry
Fuel and energy	PCI, oxygen enrichment, hot blast, BF gas, coke rate reduction, energy conservation
Equipment	Skip, double bell and BLT charging; stave coolers; hot blast stoves; GCP; cast house
Projects	Cold trials, stove heating, commissioning, shutdowns, relining, gunning
Reliability	RCA, failure analysis, automation interlocks, PI trend analysis, 5S and TPM audit
Management	Vendor performance, spares and budget control, training and multi-skilling

Behavioural strengths

- Calm, decisive under furnace upsets and tight shutdown windows
- Data-led problem solver: trends first, then root cause, then a fix that holds
- Builds cross-functional alignment with SMS, sinter plant, power plant and maintenance
- Safety-first leader who coaches crews and builds multi-skilled teams
- Cost-conscious, with a bias for simple, repeatable improvements

- Clear communicator with management, vendors and shop-floor teams

Education

B.E. Production Engineering, First Class (2003). M.I.E.T. Engineering College, Gondia (Nagpur University)

Languages: English, Hindi, Bengali
